

I have been on the Tennessee Do Not Call List since it started 5 years ago and on the Federal Do Not Call List since it started. They work well. Please do not change them. If the rules are difficult for the telemarketers...that's good, in fact, make them even more difficult. DO NOT weaken Tennessee's very good law.

I pay my phone bill monthly for MY convenience. It is NOT installed to receive calls from telemarketers and I don't want them calling me under any circumstances. I've had peace and quite at the dinner table for the last five years and I want it to continue.

Thank you,

Michael T. Hanley
